SPECIFICATIONS FOR GLOBES & COLOUR CODING

FOR ROUTE TAXIS

Date: April 2015

The Transport Authority is implementing standards for the use of globes and colour coding for Route Taxis.

Accordingly, effective **February 15, 2016, no first time (new)** or renewal application for a Route Taxi road licence will be accepted unless the following specification/requirement in accordance with the law and the Transport Authority's standards has been met.

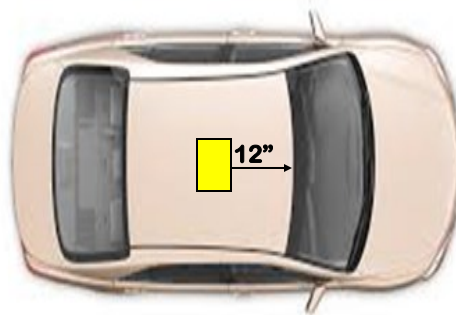

GLOBES

A taxi roof sign/globe on the top of the vehicle, bearing the word 'taxi' plainly and distinctly visible from the front and rear of the vehicle.

The shape, colour and dimensions should be that approved by the Transport Authority.

The roof sign/globe should be yellow with black lettering and shall be not less than 22cm (9") in length, 7cm (2.5") in width and 8cm (3") in height. The taxi roof sign/globe should be positioned on the roof of the vehicle toward the front, 30.5cm(12") from the windshield (at centre).

It should be securely affixed on the roof of the vehicle. The roof sign/globe must have the ability to be lit at any time required.

COLOUR CODING

The format of the colour coding is as follows:

- On the sides, a checked pattern/print in black and white. The pattern should be oriented horizontally and measure 10cm (4") in height. Each check should be 2.5cm (1") squares.
- The length of the strip should be from the front fender to the trunk of vehicle, that is to say, between the headlights and taillights of the vehicle.
- The checked pattern/print shall not be more than 1.5cm (1/2") below the weather strip located at the bottom of the window of each door.
